commencing from the date of our 1st service engineers visit.**

COMPANY NAME	
---------------------	--

Company Address:

Our company registration number is:

Our purchase order number is:

***Required Field* your accounts email:**

SIGNATURE:..... | DATE:

**Please Note* Our companies' principle activity is the supply of
New or Used metalworking machinery**

**We look forward to hearing from you when you are next
considering a metal working machine purchase**

What is Covered:

Our engineer(s) **initial visit(s)** to your workshops is to firstly diagnose the problem(s) with your companies Metalworking Machinery. Only when this diagnosis is completed can our engineer(s) advise to your company if JPS Machinery Ltd service team engineer's are able to resolve the problem(s) same day, or if a return visit is required

For the avoidance of doubt: If our engineer(s) conclude that the problems with the Metalworking Machinery cannot be resolved, then '**please note ***' that under these circumstances your company will incur our standard engineers hourly charge rate, plus travel & mileage cost's.

Whilst our engineer always endeavour to diagnose and resolve problem's during a visit, this may be problematic for the following reasons:

Manufacturers technical information is often critical to diagnosing and understanding of fault(s) and solutions

If JPS Machinery Ltd did not supply the equipment /machinery, our engineers may not therefore have in their possession a relevant operator's manual or have had previous experience with this particular equipment. In this instance our engineer(s) will require to see your copy of the operators' manuals, electrical, hydraulic circuit drawings, parts lists etc, that were originally supplied with the equipment / machinery by the original manufacturer, or the original machinery dealer.

For the avoidance of doubt : If you do not have available the manufacturers technical information, operators manual etc, *then diagnosing a fault may be 'difficult and time consuming'.*

If you cannot supply the manufacturers technical information, then our engineer may have to on your companies' behalf, source this information from the original equipment /machine manufacture, or their UK agent, or any other source of information deemed suitable.

This will incur your company in additional chargeable costs, such as our office administration time, manufacturers charges for supply of manuals, drawings, telephone assistance etc.

Health & Safety

To ensure that JPS Machinery Ltd Health & Safety policies are applied, our service team do not undertake to work seek assistance from a member of a customer's work force in situations where additional assistance is required for the safe removal of parts, tooling, guillotine blades etc,

FOR AVOIDENCE OF DOUBT:- if in advance JPS Machinery Ltd know that additional assistance is to be required, then JPS Machinery Ltd will attend your workshop with a 2nd service team member

General Terms & Conditions

Mileage charges will be under our constant review in light of the chaos in world crude oil prices, costs at the pump, therefore our mileage charge may increase without further notice

General Terms & Conditions

Requested Assistance by a 3rd Party

In the event that our service team require technical assistance from a 3rd party, i.e. faults relating to machinery / equipment or replacement parts supplied by others, then in event our service team engineer arrives your premises but the 3rd party **does not then supply** the required technical support, either via phone, or in person at your works, then JPS Machinery Ltd will fully charge travel time & mileage costs, on site costs for the attendance at your works

Service team attendance at your workshop

Please Note* the nature of service work with regard about duration of work at a prior service, repair, breakdown call out makes our service teams arrival at your workshop **'un-predictable'**.

Please be aware that our hourly on site & travel time charges increase at **18.00** pm as detailed page **4**, therefore if your scheduled slot is in the afternoon, your hourly on site & travel time charges may incur hours at our stated overtime rates.

Visit preparation / return unload time:

Our service team engineers, may incur preparation time for an individual customers call out, requiring to organising tooling, hydraulic oil, oil pumps, collect repaired parts etc all the preparation work time that is applicable to the work to be undertaken at your companies call out request, is chargeable, plus any required unloading on return to our Leeds work shop

General Terms & Conditions

Travel time charges :

Travel time charges are chargeable per engineer

Either : Outgoing from our Leeds workshop, return journey to our Leeds workshop, or chargeable from a previous customer works & then the return journey to our Leeds workshop. *At the charging rates set out on page 2*

Travel time is 'actual' travel time, not travel time generated by sat nav's or post code to post code software.

Our Service team engineers may encounter varying levels of *'route congestion, road works, accident incidents'* etc, clearly, JPS Machinery Ltd cannot control such traffic conditions to and from your workshop.

Additionally they may be towing a trailer, which does slow down road speeds.

'FOR THE AVOIDANCE OF ANY DOUBT'

Any resulting increase in our service team engineers travel time caused by *'route congestion, road works, accident incidents'* will be passed directly on to your company.

General Terms & Conditions

Warranty of our work :

We give a **30**-day warranty relating to our work **The essence of our warranty being**, that all our written or verbal recommendations relating to the service / repair work have been implemented.

Should the customer choose to limit the scope of repair because of time or financial restraints, then this customer action will void our ability to warrant our work.

Acceptance of our Engineers time, expenses, spare part detail's :

Our engineer will seek a suitable person to 'sign off' his time *sheet, expenses, spare part details etc*, in the event that the engineer cannot locate a *suitable person*, the engineer will leave site.

Time sheet hours :

Are rounded up to the nearest $\frac{1}{4}$ hr
Minimum on site time charge **2 hrs**

Consequential Loss :

We accept no liability for any financial loss incurred due to interruption of a customer's production resulting from equipment down time during repair or service, however the 'down time' is incurred.

General Terms & Conditions

Credit Limits:

New customers are required to make cleared fund payments prior to each visit our engineers undertake to your works premises, plus purchases of any required replacement parts.

The amount requested on each occasion of our service teams visit(s) will be variable, calculated upon our service managers estimate of:

Site work plus travel time, travel costs, replacement parts required.

We will credit / refund any of our charges that are not applicable.

Credit accounts will be considered, only after completion and full payment for the 1st service, repair, breakdown call out job.

We undertake a credit search using **EXPERIAN.**

Individual company max account credit limits will vary according to information obtained from **EXPERIAN**.

Once a max account credit limit has been established, then upon a company reaching their individual credit limit, our service team will request a payment to settle any account balances before further visits or parts are sanctioned

Once a max account credit limit has been established, then upon a company reaching their individual credit limit, our service team will request a payment to settle any account balances before further visits or parts are sanctioned

Requests to increase a company credit limit can be discussed with the JPS Machinery Ltd service team.

General Terms & Conditions

Account Terms:

Where a credit account facility has been agreed, **the account will be net monthly**

Net Monthly Being:- Account being due at the end of the month following the month of the invoice issue

Payment of Account:

“The customer shall be liable to pay all costs, fees, disbursements and charges including legal fees and costs reasonably incurred by JPS Machinery Ltd & its agents in the recovery of any unpaid invoices regardless of the value of the claim.”
